Message

IGNITE, INSPIRE and INNOVATE...

My dear students, your days are filled with learning, growing, and collaborating with amazing educators and teachers who have the same goal of preparing you for success in life. Innovation and creativity are two side of the same coin necessary in higher education today. Innovation as fun, creative, diverse, collaborative, and intuitive. Taking small and positive steps to accomplish this goal is the way to go. We should always be ready to learn from our previous experiences whether good or bad and then adapt accordingly and try again till we succeed. One of the surest ways to get a job done more innovatively is, quite simply, to reorganize frequently.

All the best for you future innovative ideas

With Best Regards

Prof (Dr.) H.A. Pandya

MESSAGE

Young people need to be prepared for a variety of roles in a future that will be transformed by automation and digitization. Gujarat University is not solely focused on preparing young people for the workforce, but for all round development of a student. It is essential that ways for partaking in extracurricular activities be available to students. Such activities are conducted regularly to enable students to discover and hone their skills in fields that are not academic in nature. Social responsibility is an ethical theory, in which individuals are accountable for fulfilling their civic duty; the actions of an individual must benefit the whole of society. GU believes that there must be a balance between economic growth and the welfare of society and the environment. Students play a vital role in the society. They are the guardians of freedom, justice, equality, ethics and social equilibrium.

Holi, Spring and Colours

Holi is a celebration of joy, goodness and season of spring. In these two days of celebration, people perform a ritual of Holikadahan , burning all sins of the past year and next day celebrate Dhuleti, a festival of colours and joy.Holika bonfire symbolizes the sublimation of coarse human nature. It burns away evil tendencies and lights the inner fire of spiritual wisdom. So this holi, bury the hatchet and start a new in the spirit of spring. Let the vibrant colours of Holi unite us all, rekindle the spirit to a new lease of life just like the onset of spring which we are witnessing.
