Dr. Jagdish Bhavsar
Pro-Vice Chancellor

29/02/2020

Message

It is pertinent to develop an inbuilt research mechanism in our higher education system. Gujarat University has identified this and is committed to both research and teaching excellence. The quality of research work directly translates to the quality of teaching and learning in the classroom, and thus it is benefiting the students, society and the country. The promotion of research in a huge and diverse country like India will help the nation to evolve as a knowledge reservoir in the international arena.

The need for sharing knowledge between research institutions and industry has become evidently increase. The emerging importance of inter disciplinary fields has given rise to institutional collaborations that allows knowledge to be pooled together. Research provides basic inputs that can be used for planning and policymaking. It is needlessly to say that Academic Research is an internal part of global development.

(Dr. Jagdish Bhavsar)
Pro-Vice-Chancellor
